

# The MG Car Club Geelong Inc.

Selected Indexes of articles in Safety Fast magazine.

Many of these magazines are missing from our Library,  
please return if you have them.

The Index is not complete but is a 'work in progress' and will be  
updated regularly.

Only articles of on-going historical or technical interest are indexed.  
I have included any articles about the history of the MG Company,  
MG Car Club, MG cars, or the people who were involved in either.

I have not listed articles about Club Runs, Competition Events,  
or non-technical reports of Club Members' MGs as many of these  
are only relevant to Members in the UK.

---------	---------------	-------

**Safety Fast' magazine was first published in April 1959. In this era, 'Safety Fast' was the BMC House Magazine, not specifically about the MG Car Club, but was billed as 'the magazine for those who practise driving as an art' and contained more than news about MGs. It included race and rally reports and news from the Austin-Healey Club as well as the MGCC. It frequently featured other BMC cars, notably rally Minis.**
